Service & Outreach

Non-academic Career Seminar | *Lead organizer* 2021-2023

- Initiated and organized informal informational interviews with early-career researchers in non-academic positions (PhDs in Ecology, Evolution, Behavior, and Conservation Science)

Field Guides | *Mentor* 2022-2024

- Mentored undergraduate students broadly interested in ecology, evolution, and behavior to help them find on-campus research positions, connect them with potential employers, help them apply to summer research positions

Data Competition

Interdisciplinary Health Data Competition | *Machine Learning* 2021

- Analyzed Covid-19 data to identify possible factors that shape Covid-19 responses (cases, deaths, hospitalization)
- Performed variable selection in the data by using Lasso methods and fit the model with Generalized Linear Mixed Model (GLMM)

Midwest Undergraduate Data Analytics Competition (MUDAC) | *Decision tree learning* 2018

- Identify relevant fan retention metrics in order to maximize the renewal rate of season ticket holders for the Minnesota Wild
- Analyzed the dataset provided by the Minnesota Wild by using classification analysis

Technical Skills

Programming languages: Bash, R

Miscellany: Google Earth Engine, GitHub, HTML, Knitr, LaTeX, Markdown
